CHATEAU LA GAUDOU

In almost 300 years, the Durou family's perseverance and passion have been passed on through a commitment to know-how and rigorous work to produce exceptional wines. For several generations, the winegrowers of Château de Gaudou have participated in the construction and the fame of the Cahors appellation.

Chateau de Gaudou's Philosophy: We create our vintages without betraying our traditions but by constantly innovating to offer you the best of our grapes and our wines. On a daily basis, we concentrate our efforts in the conservation of our terroirs and our vines thanks to a conservation agriculture in High Environmental Value and in conversion to organic agriculture, to pass them on to the next generations. The gradual transition of our red wines to organic viticulture is the natural evolution of this approach.'
