CHATEAU DE DRACY

Château de Dracy is a family estate located in Couchoisin the south of the Côte de Beaune. The wines are vinified in the 18th century vat room and cellar located next to the medieval castle, built in 1298 then remodeled in the 16th century (construction of the dungeon), 18th century (vat room and cellar) and finally in the 19th century. The castle archives contain documents attesting to the presence of vines since the 15th century. The estate belongs to the Charette family and was recently taken over by Quentin de Charette.
