DOMAINE VILLEPEYROUX FOREST

Between moors and pine forests, in the very heart of the Minervois region, just a few kilometres from the medieval city of Carcassonne, the Domaine Villepeyroux Forest estate boasts 40 hectares of vines planted on half slopes of clay-limestone soil and grows about a dozen grape varieties. The family business focuses on the authenticity of the land, with the wine made from the best plots on the estate, and left unfiltered to guarantee quality.
